5/30 from 10am to 1pm works for me.

5/31 does not work for me at all.

Stormwater in the EPA PH ROD

Folks, I'd like to have a discussion about how the ROD would address stormwater discharges. This could be stormwater at sites with other impacts, or sites that are stormwater only. My goal is to start getting as much certainty as we can about how these sites will or will not be brought into the site so that we can design an upland site management strategy that as informed as possible.

I don't know if all of us need to be at this, but I thought I'd send it more broadly than less to start. We could do some calling in too.

How about Tues 5/30 (anytime) or Wed (PM only) 5/31? Thanks.
